

RAPID WALL III

PREFABRICATED WALL SYSTEM

Quicker | Better | Eco-Friendly

**Wall, Foundation and Roof Panels
Made with Roll Formed Steel and EPS Foam**

We manufacture a panel in minutes that can be installed on site in minutes. Wood, concrete, or steel and foam constructed on site can't touch the efficiency of **RAPID WALL** Technology.

Supplied with cut outs for doors & windows, headers, steel jamba (bucking), cladding attachments and chasing for electrical etc.

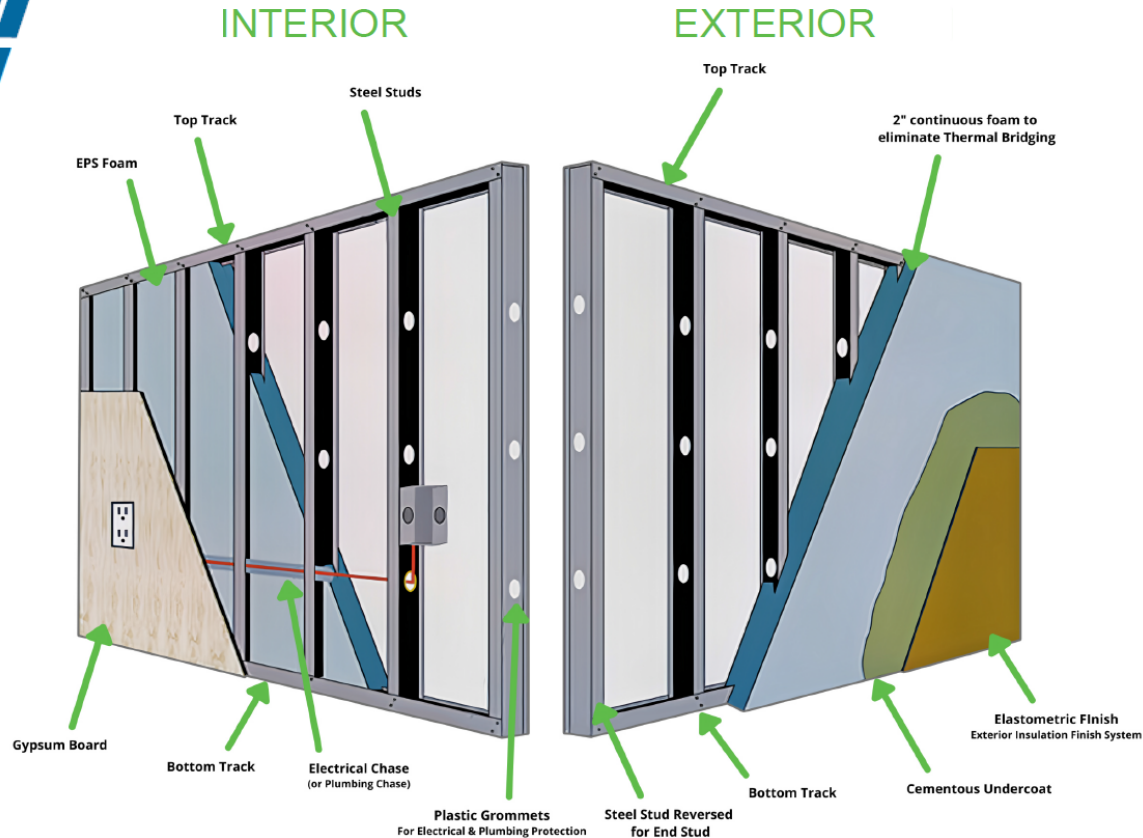

Simplicity means virtually anyone can quickly learn to install panels.

Faster construction reduces financial carrying costs, material waste, on-site waste, theft and weather damage. Builders! Get to the revenue phase faster!

- 
Save Money! - Less expensive than conventional building materials when factoring in material and time savings.
- 
More Durable - Better resists violent weather, rot and insects and with a lifespan of up to 650 years!
- 
Sustainable Supply & Pricing - Build with steel and EPS foam both made from recycled materials.
- 
Thermal Wrap - Type 2 closed cell EPS (Expanded Polystyrene) foam offers virtually no thermal transfer exceeding required R values and considerable savings on heating and air conditioning costs.
- 
Health & Safety - Resists mold & fire.

Easily personalized with the exterior cladding of the Customer's choice including, Stucco, Hardie Board, Brick, or Stone.

Construction without destruction! The world's forests are getting ravaged globally. Help reverse the trend while building Quicker & Better. An environmentally conscious process from start to finish!
